CLASSES

Whether you are interested in learning the fundamentals of winter driving or are looking for an introduction to World Rally Racing techniques, we offer a training program to suit your needs. Our clients range from the young permit holder to the professional race driver. We offer private instruction and corporate team building courses as well. Whatever your goal, our 30+ years of experience will help you reach your full potential.

- **FIRST GEAR** Improve your winter driving skills in our abbreviated class (4 hours), offered on Wednesdays and Saturdays. You will get an introduction to the basics of safe winter driving.
- **SECOND GEAR** This is our most popular class for drivers of all experience levels wanting to improve their ability to confidently drive in low-grip situations. In this full-day class, you will gain a new perspective on how to handle your vehicle in slippery conditions and avoid potentially catastrophic accidents. Offered seven days a week.
- **THIRD GEAR** is for those who wish to get the most out of their vehicle in all driving conditions. In addition to teaching you to properly control a vehicle in a low-grip situation, we also pass along the entry-level tricks and techniques used by the world's greatest rally drivers.
- **FOURTH GEAR** builds on the performance driving skills gained in Third Gear and adds many new proactive rally-based techniques. You will learn advanced skills used by world class rally drivers. Prerequisite: Third Gear
- **FIFTH GEAR** This comprehensive two-day school with our senior instructors teaches you the advanced skills used by world class rally drivers. You will learn cornering, acceleration, and braking techniques, along with tricks like the Scandinavian Flick. Whether you are a driving enthusiast or a pro racer, you will acquire enhanced vehicle balance and control skills for front-, rear, and all-wheel drive vehicles. We provide plenty of practice sessions so you can refine your newly learned skills to an instinctual level.
- **SIXTH GEAR** Achieve your group or company goals at Bridgestone Winter Driving School. Our programs are founded in winter driving instruction, but we can tailor them to create team building, employee motivation, conflict management, strategic planning, and team leadership training.
- **PRIVATE INSTRUCTION:** We offer personalized one-on-one training for drivers wanting to improve their skills or arrange specialized training. Prior completion of one of our standard courses is a prerequisite. Please call for pricing.
